⁽¹⁾ Fee related performance revenues are the realized portion of performance revenues that are measured and received on a recurring basis, are not dependent on the disposition of investments, and which are not at risk of giveback. The related compensation expense is included in cash-based compensation and benefits.

⁽²⁾ Total Segment compensation and benefits exclude equity-based compensation. Details on equity-based compensation are shown on page 11. These amounts include equity-based compensation reflected in (i) principal investment income and (ii) general, administration and other expense in our U.S. GAAP statement of operations, and exclude amounts related to shares issued in conjunction with a previous acquisition.

⁽³⁾ In the earnings presentation attached as an exhibit to our Form 8-K for the quarter ended December 31, 2022 and furnished to the SEC on February 7, 2023, reconciliation of Distributable Earnings to After-tax Distributable Earnings per common share is provided on page 29.

⁽⁴⁾ In February 2022, our Board of Directors approved an increase in the anticipated common stock dividend to an annual rate of \$1.30 per share (\$0.325 per common share on a quarterly basis), commencing with the first quarter 2022 dividend paid in May 2022. In February 2023, our Board of Directors approved an increase in the anticipated common stock dividend to an annual rate of \$1.40 per share (\$0.35 per common share on a quarterly basis), anticipated to commence for the first quarter 2023 dividend expected to be paid in May 2023. The declaration and payment of any dividends to holders of our common stock are subject to the discretion of our Board of Directors, which may change our dividend policy at any time or from time to time, and the terms of our certificate of incorporation. There can be no assurance that dividends will be made as intended or at all or that any particular dividend policy will be maintained.

- (1) Fee related performance revenues are the realized portion of performance revenues that are measured and received on a recurring basis, are not dependent on the disposition of investments, and which are not at risk of giveback. The related compensation expense is included in cash-based compensation and benefits.
- (2) Realized principal investment income in 2019 includes \$72 million of gain upon the final resolution of French tax litigation concerning a European Real Estate fund, reversing in part a loss that was recognized in 2015.
- (3) Total Segment compensation and benefits exclude equity-based compensation. Details on equity-based compensation are shown on page 12. These amounts include equity-based compensation reflected in (i) principal investment income and (ii) general, administration and other expense in our U.S. GAAP statement of operations, and exclude amounts related to shares issued in conjunction with a previous acquisition.
- (4) General, administrative and other expenses ("G&A") in 2020 G&A includes the positive impact of a \$30 million recovery of litigation costs (a contra expense). Excluding this, G&A would have been \$271.4 million in FY 2020.
- (5) In the earnings presentation attached as an exhibit to our Form 8-K for the quarter ended December 31, 2022 and furnished to the SEC on February 7, 2023, reconciliation of Distributable Earnings to After-tax Distributable Earnings per common share is provided on page 29.
- (6) In February 2022, our Board of Directors approved an increase in the anticipated common stock dividend to an annual rate of \$1.30 per share (\$0.325 per common share on a quarterly basis), commencing with the first quarter 2022 dividend paid in May 2022. In February 2023, our Board of Directors approved an increase in the anticipated common stock dividend to an annual rate of \$1.40 per share (\$0.35 per common share on a quarterly basis), anticipated to commence for the first quarter 2023 dividend expected to be paid in May 2023. The declaration and payment of any dividends to holders of our common stock are subject to the discretion of our Board of Directors, which may change our dividend policy at any time or from time to time, and the terms of our certificate of incorporation. There can be no assurance that dividends will be made as intended or at all or that any particular dividend policy will be maintained.

Note: Fund management fees increased 3% in 4Q'22 and 22% in FY 2022 from the comparable periods in 2021, reflecting the activation of fees on our latest vintage U.S. Buyout and U.S. real estate carry funds in 4Q'21 and Europe Technology carry fund in 1Q'22, the impact of investment activity in funds on which management fees are based on invested capital, as well as management fees from the CBAM acquisition in 1Q'22, the Fortitude strategic advisory services agreement, which was effective April 1, 2022, and the Abingworth acquisition in 3Q'22. These increases were partially offset by the impacts of realizations in funds on which management fees are based on invested capital and basis stepdowns from commitments to invested capital on prior vintage funds.

Note: Investment income (loss), including performance allocations, for FY 2022 reflects 11% appreciation in our carry portfolio for FY 2021. Investment income in FY 2022 also includes an investment loss of \$177 million related to the dilution of our ownership in Fortitude in connection with the capital raise and initial drawdown in 2Q'22 (see Note 2 for additional information).

Note: Equity-based compensation in 4Q'22 reflects the impact of a reduction in the number of shares expected to vest under certain performance-based restricted stock awards based on full year results. FY 2022 equity-based compensation decreased 6% compared to FY 2021, reflecting fewer shares expected to vest under certain performance-based restricted stock awards in 2022 relative to 2021, partially offset by approximately \$10 million of net expense in FY 2022 related to the modification of certain restricted stock awards in connection with the departure of our former chief executive officer

Note: General, administrative and other expenses ("G&A") in 3Q'21 includes \$15 million in currency translation loss previously recorded in accumulated other comprehensive income and related to the sale of our local Brazilian management entity on August 31, 2021. 2Q'21 G&A also include \$27 million in right-of-use asset impairment related to the sublease of a portion of our office space in New York. The currency translation loss and impairment charges are excluded from our Non-GAAP financial metrics. In 1Q'20, G&A includes the positive impact of a \$30 million in covery of litigation costs (a contra expense). Excluding this, G&A would have been \$100 million in 1Q'20.

Note: Provision for (benefit) for income taxes in 3Q'21 reflects higher pre-tax income. Provision (benefit) for income taxes in 1Q'20 reflects a tax benefit of \$170 million related to the net loss during the quarter, net of \$90 million in expense related to a reduction in the net deferred tax asset resulting from the Company's conversion from a partnership to a corporation on January 1, 2020 (the "Conversion").

- (1) On January 1, 2020, The Cartyle Group L.P. (the "Partnership") completed its conversion from a Delaware limited partnership to a Delaware corporation, The Cartyle Group Inc., Information reported for periods prior to the Conversion on January 1, 2020 reflect the results of the Partnership. References to The Cartyle Group Inc., our common stock and our dividends in periods prior to the Conversion refer to The Cartyle Group L.P., its common units and distributions. For periods subsequent to the Conversion, Net income (loss) attributable to Cartyle Holdings, refers to Net income (loss) of The Cartyle Group Inc. and its consolidated subsidiaries, net of non-controlling interests in consolidated entities.
- (2) In connection with the initial drawdown of the Fortitude capital raise in Q2 2022, our indirect ownership was diluted from 19.9% to 13.5%, resulting in a \$177 million investment loss in our GAAP results, which is excluded from our Total Segment results. At the time the remaining capital is called by Fortitude, our indirect ownership will further decrease to 10.5% and we expect to record an additional reduction in carrying value and related loss.
- (3) Income (loss) before provision for income taxes is the GAAP measure that is most directly comparable to Distributable Earnings, which management uses to measure the performance of the business. In the earnings presentation attached as an exhibit to our Form 8-K for the quarter ended December 31, 2022 and furnished to the SEC on February 7, 2023, a full reconciliation is included starting on page 30. In that document, see "Non-GAAP Financial Measures" for additional information.
- (4) Prior to the Conversion on January 1, 2020, Net income (loss) attributable to non-controlling interests includes the non-controlling interests in Carlyle Holdings.
- (5) Income (loss) before provision for taxes margin is equal to Income (loss) before provision for taxes, divided by Total revenues.
- (6) Net performance revenues are equal to Performance revenues less Performance revenues related compensation expense.

Net performance revenues ⁶	\$	393.7 \$	1,177.8 \$	246.6 \$	362.4 \$	856.8 \$	3,123.6 \$	607.6

Note: Fund management fees increased 3% in 4Q'22 and 22% in FY 2022 from the comparable periods in 2021, reflecting the activation of fees on our latest vintage U.S. Buyout and U.S. real estate carry funds in 4Q'21 and Europe Technology carry fund in 1Q'22, the impact of investment activity in funds on which management fees are based on invested capital, as well as management fees from the CBAM acquisition in 1Q'22, the Fortitude strategic advisory services agreement, which was effective April 1, 2022, and the Abingworth acquisition in 3Q'22. These increases were partially offset by the impacts of realizations in funds on which management fees are based on invested capital and basis stepdowns from commitments to invested capital on prior vintage funds.

Note: Investment income (loss), including performance allocations, for FY 2022 reflects 11% appreciation in our carry portfolio, compared to 41% appreciation in our carry portfolio for FY 2021. Investment income in FY 2022 also includes an investment loss of \$177 million related to the dilution of our ownership in Fortitude in connection with the capital raise and initial drawdown in 2Q'22 (see Note 2 for additional information).

Note: Equity-based compensation in 4Q'22 reflects the impact of a reduction in the number of shares expected to vest under certain performance-based restricted stock awards based on full year results. FY 2022 equity-based compensation decreased 6% compared to FY 2021, reflecting fewer shares expected to vest under certain performance-based restricted stock awards in 2022 relative to 2021, partially offset by approximately \$10 million of net expense in FY 2022 related to the modification of certain restricted stock awards in connection with the departure of our former of-hief executive officer.

Note: General, administrative and other expenses ("G&A") in FY'21 include \$15 million in currency translation loss previously recorded in accumulated other comprehensive income and related to the sale of our local Brazilian management entity, as well as \$27 million in right-ro-use asset impairment related to the sublease of a portion of our office space in New York. These amounts are excluded from our Non-GAAP financial metrics. In FY'20, G&A includes the positive impact of a \$30 million recovery of litigation costs (a contra expense). Excluding this, G&A would have been \$379 million in FY'20.

Note: Provision (benefit) for income taxes for FY'20 includes \$86 million as a provision for income taxes as a result of a reduction in our net deferred tax asset related to our conversion from a partnership to a corporation on January 1, 2020. Excluding this impact from Conversion, our effective income tax rate for the FY'20 would have been approximately 19%.

- (1) On January 1, 2020, The Carlyle Group L.P. (the "Partnership") completed its conversion from a Delaware limited partnership to a Delaware corporation, The Carlyle Group Inc. Information reported for periods prior to the Conversion on January 1, 2020 reflect the results of the Partnership. References to The Carlyle Group Inc., our common stock and our dividends in periods prior to the Conversion refer to The Carlyle Group L.P., its common units and distributions. For periods subsequent to the Conversion, Net income (loss) attributable to Carlyle Holdings, refers to Net income (loss) of The Carlyle Group Inc. and its consolidated subsidiaries, net of non-controlling interests in consolidated entities.
- (2) In connection with the initial drawdown of the Fortitude capital raise in Q2 2022, our indirect ownership was diluted from 19.9% to 13.5%, resulting in a \$177 million investment loss in our GAAP results, which is excluded from our Total Segment results. At the time the remaining capital is called by Fortitude, our indirect ownership will further decrease to 10.5% and we expect to record an additional reduction in carrying value and related loss.
- (3) Income (loss) before provision for income taxes is the GAAP measure that is most directly comparable to Distributable Earnings, which management uses to measure the performance of the business. In the earnings presentation attached as an exhibit to our Form 8-K for the quarter ended December 31, 2022 and furnished to the SEC on February 7, 2023, a full reconciliation is included starting on page 30. In that document, see "Non-GAAP Financial Measures" for additional information.
- (4) Prior to the Conversion on January 1, 2020, Net income (loss) attributable to non-controlling interests includes the non-controlling interests in Carlyle Holdings.
- (5) Income (loss) before provision for taxes margin is equal to Income (loss) before provision for Taxes, divided by Total revenues.
- (6) Net performance revenues are equal to Performance revenues less Performance revenues related compensation expense.

⁽¹⁾ The U.S. GAAP results for FY 2020 include a loss in principal investment income (loss) of \$(621) million related to the closing of the transaction in which a Carlyle-affiliated investment fund purchased additional interests in Fortitude from AIG. The loss was driven by the contribution of our existing 19.9% investment in Fortitude into the fund, and the subsequent accounting for our investment which is based on the net asset value of our limited partnership interest in the fund rather than a direct investment in Fortitude.

⁽²⁾ In connection with the initial drawdown of the March 2022 capital raise from Fortitude, the Company's indirect ownership of Fortitude decreased from 19.9% to 13.5%. As a result of the dilution, the Company recorded a reduction in the carrying value of its equity method investment and corresponding loss of \$177 million. At the time the remaining capital is called by Fortitude, the Company's indirect ownership will further decrease to 10.5% and the Company expects to record an additional reduction in carrying value and related loss. These amounts are excluded from the total segment results.

⁽³⁾ Equity-based compensation includes amounts reflected in principal investment income and general, administrative and other expense in our U.S. GAAP statement of operations. Information reported for periods prior to January 1, 2020 reflect the results of the Partnership.
